sandboxie 3.76 64 bit 2 | 15MB Sandboxie is an application that will enable you to run the software directly in the background, so that you can use the software you're currently using and can't possibly stop it. What makes Sandboxie different from other similar applications is that you can run the program in the background of another software and the software will work as intended, but you do not have to be logged in! Some software may not work properly if you do not have the right environment. fffad4f19a
