when i open and read doc or zip files. the installed software is working fine. but when i'm copying from one laptop to other the files, there is a error like The process cannot access the file because it is being used by another process. (Exception from HRESULT: 0x80010105 (RPC_E_WRONG_THREAD)) is my system having some problem? or any solutions for this. A: What you are seeing is a classic problem with multi-threading. The only way to correct it is to close the open instance of the software. To close the instance you have to manually find the process using the task manager and close the process. So many times I've had this problem with older programs, it always happened when something else was open and the file was being accessed. I find the culprit, close it and everything works fine. Irreversible electroporation as an alternative therapy for cancer.

Implementation of cell death in situ by irreversible electroporation is a novel treatment approach that harnesses the electric field-induced cell membrane permeability to facilitate cellular death. This article reviews basic concepts of irreversible electroporation and provides an overview of the method's advantages and disadvantages. A number of rodent tumor models of different types are presented that demonstrate that the electric field-induced permeability can be sufficiently large to allow for cell death via plasma membrane disruption. The advantages of the technique include: 1) a short treatment time, 2) treatment of multiple tissues at once, 3) the ability to treat tissue in vivo, and 4) spatial control of the electric field-induced cell death. Advantages of this technology are that it requires no exogenous chemicals, can be applied to both small and large tumors, and has the potential to selectively eliminate cancer cells.. A Better Man Than Me was a collection of short stories, usually written in first person, based on the lives and/or experiences of police officers and those involved with law enforcement. Police detectives and other "real world" officers were frequently used as fictionalized versions of himself. I've never read the book, but I know what the movie is about, so I'll answer your question. The movie "A Better Man Than I" was based on the book "A Better Man Than I" by the "real world" police officer Roby Wolfe. I've searched
