Amount of funding Fiscal Year Amount (\$ in millions) [1] Columbia County received \$1,923,452 from the Federal government for the construction and operation of the West Area Powerhouse. Savannah River received \$2,383,692 from the Federal government for the operation of the West Area Powerhouse. Note: The number in the first row is the total for both counties. The annual report has an interesting graphic showing the distribution of that funding: This shows that the public funding goes mainly into capital items, with about half of that going to the N-plant.[2] This is largely because of the West Area Powerhouse, which came with a price tag of \$1.4 billion. The remainder is split between operations, maintenance and other items. [3] The National Nuclear Security Administration's (NNSA's) 2018 N-plant Operations and Maintenance (O&M) budget request, based on current plans, shows the West Area Powerhouse will account for 46% of the N-plant's \$370 million O&M budget. Based on the O&M budget request, NNSA requested \$182.5 2d92ce491b
