Category: Hdrip Category: Internet propertiesAustralia's biggest ever wave over 19m has been seen at Fingal Head, on the NSW south coast, according to the Surf Life Saving Association of Australia. One of the waves, which came on Saturday afternoon, was captured on video by Australia's Surf Life Saving Association (SLSA) by filming technology called a SurfCam. In a statement, the SLSA said the huge wave was first spotted on the beach by a member of the public and "magnified" in real time to aid the rescue effort. "The conditions were very challenging, with cold and windy conditions, and lifeguards were aware of the possibility of a big wave," the statement said. There are many assholes out there, but I think you have to make an effort to make yourself one of them. When I saw these outfits at the arthouse in Naperville I knew right away that someone must have taken lessons from a "fashionista" to be able to pull it off. This dress is a classic. The floral isn't the flower the little girl is about to enjoy. She is about to see her first boobies. My other favorite part is the shoes. I don't know why, but they are just so adorable. Her dance teacher probably needs new shoes, because it looks like it hasn't been danced in a while. This picture will be available for people to download in the contest. Contest ends at 12 midnight, MST on January 9th. Hey everyone, I have been re-reading my contest entries and realized I forgot to mention the trick to accessorizing. I thought the trick would be too obvious, so I will mention it now. If you look carefully at the picture you will see the girl is wearing a very flowery dress. 2d92ce491b
