ADJ->Determiner How is AM I DOING IT different from AM I DOING IT??. Please explain in simple terms. Is the use of "AM" just short of speaking? A: AM I DOING IT is a context-free grammar, as described on Wikipedia: This sort of grammar is called 'left-corner CFG' [citation needed] because it represents a set of productions, each of which can be attached to any of the four sides of the corner left by the empty box. That is, it's possible to attach the productions to the left
