It seems there are some bugs and/or missing icons from the MIFARE Classic Pack. So this is the best alternative to the bundle (see above). There are only MIFARE Classic 6Ki icons, which I don't know about their copyright. But they are very useful to display MIFARE Classic output, like BIP44, MMSTA. Description: UzOIz will be the answer to all your problems! The set of colors is divided into two groups: primary and secondary. Primary colors are 6 available. Secondary colors are a set of 96. The original MS Paint Brush can also be used for all icons. You can even customize any color of the set with the help of a brush. When working with the uzOIz icon pack, you will also get help with the insertion and restoration of any file with the help of the Snipping Tool!
