PDF Page Counter Deluxe Crack + PC/Windows [Latest-2022]

PDF Page Counter Deluxe is a very powerful PDF utility program that can count all of your PDF files. You will be amazed at its simplicity, ease of use, and speed. This PDF page counter is extremely easy to use, and is loaded with features. This program can count any number of PDF files (including multiple PDF files) in a directory or folders with a click of a button. It can also count a specific PDF file each time you run the program. PDF Page Counter Deluxe also allows you to import and export your files in a number of formats including a simple tabulated comma delimited format. This file can be sent to an email, or is program can save it in a CSV (Comma separated Values) file, and a lot more..... This program is a great replacement for that old classic Page Numberer from Microsoft. You have never seen an older version like this before. Do you have a Site, or Project that is just too big to count, but you cant let go of? Well PDF Page Counter Deluxe is exactly what you are looking for. This is an almost perfect tool to count pdf files because it is able to count PDF files that are sitting on a disk, or on a network drive. PDF Page Counter Deluxe Features:

- Counts PDF Documents that are located on a disk, a network share, Web Server, CD or DVD
- Counts pages, words, characters or even phrase, and totals the PDF pages
- Counts PDF documents specified by complete path, including or excluding subdirectories
- Counts multiple PDF files at once (a feature that no other PDF Page counter can offer)
- Counts and sorts based on the count by file name, by date created, last modified, date last accessed, last viewed, or any combination of these
- Counts the number of pages, words, characters, or words per page in PDF documents specified by file name, and date of last modification
- Counts the number of pages, words, characters or words per page in PDF files by complete path of files, including or excluding subdirectories
- Counts the number of pages by complete path of multiple PDF documents by date of last modification
- Counts the number of pages by file size and various combinations of file size and date last modified
- Counts how many words, characters, and words per page in PDF files that are specified by filename, path name, or date last modified
- Count

PDF Page Counter Deluxe With Registration Code Free X64

PDF Page Counter Deluxe Serial Key is a extremely robust pdf file counter and page count app

that allows you to extract page numbers and pdf file counts in your documents at the click of a button. It can also report statistics on files grouped by author, title, keywords, or folder structure. These options will allow you to extract and summarize statistics. The utility can also report both full or partial page counts. PDF Page Counter Deluxe For Windows 10 Crack makes pdf's easy and effective to manage. With PDF Page Counter Deluxe Product Key, you can count pages, track statistics and export reports in just a few clicks. You can even count multiple directories with a single click of a button.
