Progression Capture allows you to create and customize player levels, rating and traits. This system allows you to create custom-made and unique player types. Not only will it help set them apart from other players, but you can also create unique player movements and attack tactics. It's never been easier to create a unique player. Due to the progression capture system, you will be able to alter the movement and attack styles of each individual player. Improved Player Creation You can now create your own player in a few simple steps using the advanced player creation system. You can now create your own player using the hyper-advanced player creation system. You will have access to an entire wealth of advanced tools and features to create your ideal player. Huge New Kit Store The Player Creation System allows players to equip their players. Available out of the box, players can be dressed in team-specific kits and wear player-specific boots. When you create a player, you can choose a different kit and boots for each position you create. Combine Players You can now create player combos that can be composed anywhere in the pitch. Using the new system, you can now create combinations of players in all positions, including forwards, full-backs, central midfielders and strikers. You can create combinations of seven outfield players and two goalkeepers. To create a combination you just need to choose two players that feature in the same position in your main team, which then gets you closer to choosing a combination. Improved Team Building You can now make or improve your team's style, tactics and formation. You can now use the improved team building system to upgrade your team's style, formation and tactics, or to improve your players from the specific positions you choose. Improved Player Fit FIFA's dynamic progression system uses the high-intensity data of real player movements in order to adaptively adjust players' skills and attributes over the course of the match. A significant amount of the player generation and skill refinement systems have been made significantly easier to use. FIFA 22 will dynamically adjust the skills and attributes of players during a match, based on the following factors: Progression: The attributes, skills and abilities that are unlocked at certain levels of the game. This system will allow you to tailor-make skills and attributes to your personal game playstyle as you play more matches. For example, you can add goalsc

Fifa 22 Features Key:

- AI Data: A brand-new AI team algorithm has been built from the ground up. Dribble into space with more ease, dominate the midfield and score breakaways like never before.
- Dribbling: Transition more freely in all directions by seamlessly delivering accurate through balls and using the tools at your disposal to find space beyond the final defender.
- Ball Physics: Play a challenging brand of attacking football with believable ball contact, accurate spin, and unique reactions from the ball. Every opponent is a new challenge and an evolution of football.
- New Controller Features: Take direction and control of your opponent with new techniques like animations, online and offline play and order of formation, which can be assigned to the quick shot buttons. Plus, refined co-op game modes and the ability to specify a preferred power-up type before a match start.
- Over 50 New Skill Games: Play brand new, challenging Skill Games in FIFA 22, including:
 - "Headless Man" - The most nefarious sport in the world - where your goal is to simply tap the ball into the goal.
 - "Joy Ride" - In this simple race game, get ahead of the pack by repeatedly hitting a brick wall.
 - "Vintage Blood" - Dodge your opponents like a bullet, then blast your way through your opponents
 - "Drag Race" - Time your overhand shots like never before.
 - "Parkour" - This game puts your athletic skills to the ultimate test as you navigate on-rails levels with only your skills and strategic use of the ball.
 - "Parrot Flip" - A riveting game that puts the player's head for a spin as they try to collect as many parrots as they can on a 2-dimensional game board before time runs out.
 - "Pirate Ship" - Imagine board game meets shipwar for this new game — control the movement of a cannon-smashing pirate ship and try to blow up as many cargo ships as you can.
